Appendix B:  
DISEASE RESEARCH FORMS

On the following pages are five copies of a disease note-taking form, which will help you take notes on your research for assignments 1, 2, and 3 in lesson 8. (You should only need four forms, but I included an extra one just in case.)
Disease Form

As you research diseases, fill out this form using complete sentences. Use one form for each disease.

Name of disease: ____________________________________________

Scientific name of disease: _______________________________________

Body organs, parts, or systems affected by the disease:
____________________________________________________________________________________________

Is this disease preventable? (Circle yes or no.) How? Or, if not, why isn’t it preventable?
____________________________________________________________________________________________
____________________________________________________________________________________________

Cause(s) of this disease:
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________

Signs and symptoms of this disease:
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________

Is this disease communicable? (Circle yes or no.) If so, how is it transmitted? If not, how do you get this disease?
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________

Treatment available for this disease:
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________

Who is most affected by this disease (think of specific geographic area, culture, age group, gender, and so forth)? In other words, does this disease affect any special populations?
____________________________________________________________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________

Other interesting facts: ____________________________________________
____________________________________________________________________________________________
____________________________________________________________________________________________
Disease Form

As you research diseases, fill out this form using complete sentences. Use one form for each disease.

Name of disease: ____________________________________________________________

Scientific name of disease: ___________________________________________________

Body organs, parts, or systems affected by the disease:
_________________________________________________________________________
_________________________________________________________________________

Is this disease preventable? (Circle yes or no.) How? Or, if not, why isn’t it preventable?
_________________________________________________________________________
_________________________________________________________________________

Cause(s) of this disease:
_________________________________________________________________________
_________________________________________________________________________

Signs and symptoms of this disease:
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

Is this disease communicable? (Circle yes or no.) If so, how is it transmitted? If not, how do you get this disease?
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

Treatment available for this disease:
_________________________________________________________________________
_________________________________________________________________________
_________________________________________________________________________

Who is most affected by this disease (think of a specific geographic area, culture, age group, gender, and so forth)? In other words, does this disease affect any special populations?
